Hi Kelly,

You only need to have an engineer stamp the calculations and call out the special inspections required, as per Pat's comments.

Hi Melinda,

Will Chris Shimada require that I have a licensed engineer re-do and stamp the "change to proposed tank placement" drawing or will the one I did be OK when I resubmit?

http://www.kellydowns.com/yahoo_site_admin1/assets/docs/dd_proposed_tank_placement_v21.298215430.pdf

I am already having licensed engineers looking at my anchor bolts, which were a separate issue with Pat Gravseth, so I am trying to save some money if I can.

Thank you,

Kelly Downs
